

Fresh, fragrant and clean air is unfortunately no longer a matter of course today. The advances in technology through industry, increasing traffic or other polluting influences are becoming more and more noticeable and affect our everyday lives. Health complaints such as headaches, nausea, general malaise and the so-called "sick building syndrome" are the consequences.

These symptoms are mainly caused by indoor air pollution, which would be:

- Unpleasant odor molecules
- Viruses and bacteria
- Pathogens and germs
- VOCs (gases)
- Fungal spores and microorganisms
- Dust and other harmful particles

The clean air devices from ARS were specially designed to efficiently kill harmful organisms and to neutralize pollutants and odor molecules. Well-being and health are important goods and must be preserved, especially in closed rooms without air conditioning. The visually appealing ARS devices are user-friendly and easy to maintain.

There are various designs for rooms of different sizes and these can be installed and adjusted individually.

The principle of action is based on a natural process. The sun in general or lightning bolts generate positively and negatively charged small ions through electrical discharges from neutral oxygen molecules. We reproduce this process with our ionization tubes and use the positive effects specifically for you.

ARS Clean Air Device – Mini Tower

Technical specifications

Dimensions LxWxH [mm]	55 x 55 x 300	Power connection	230V, 50/60Hz
Power consumption	2.5 – 3.5W	Fan	Can be switched off (readjustment)
Ionization tube type	A-tube	Room volume [m³]	105
Colour (Outer housing)	chrome matte	Ionization controller	0% - 100% infinitely adjustable
Interior lighting LED	blue	Weight	approx. 800g

Variants	Article number	Adapter	Article number
With adapter EU 230V - 12V	020100	Adapter EU 230V - 12V	020011
Without adapter	020101	Car adapter 12/24V	020025

The Mini Tower is particularly suitable for single rooms. It neutralizes unpleasant odors, effectively destroys bacteria, pollen and spores and alleviates the symptoms of asthma sufferers.

The most common areas of application are:

- In the whole living area
- Offices
- Meeting rooms
- Kitchens
- Caravans and much more

The tabletop device can be placed individually at the destination. Thanks to its attractive design, it blends in with almost no problems.

Our sales partner www.airclean.ch will be happy to provide you with additional information material, open questions about the technology or other devices, as well as for a consultation. Just get in touch with them!
